IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER
Monitoring & Reporting Requirements Not Met

The Franklin Pierce University water system recently violated a drinking water monitoring requirement.
(name of water system)
Although this is not an emergency, as our customers, you have a right to know what happened and what we are doing to correct the situation.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not your drinking water meets health standards.

During the Third Quarter *of* 2017 *we did not monitor or complete all*
(list calendar quarter(s) or month(s)) (list year(s))
required monitoring and reporting for chlorine residual and therefore cannot be sure of the quality of your drinking water during that time.

What should I do?

There is nothing you need to do at this time.

Steps We Are Taking: All required analysis was completed but a report to the NHDES was not submitted by the
(describe corrective action taken to prevent future monitoring violations)
required date. The report has been submitted and all future reports will be submitted on time.

We anticipate resolving the problem within Immediately. For more information, please
(estimated time frame)

contact Joseph P. Damour of WSO Plus, Inc. at 603-428-3525
(name of water system contact) (system or company) (telephone #)

or WSO Plus, Inc., Post Office Box 68, Henniker, NH 03242.
(address)

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.
