# How can I help keep my identity safer?

One minute your information is right there in your hand. The next, it's everywhere. Your personal info is out there, making you more vulnerable to cybercrime. Information, like your Social Security number and date of birth, can be stolen from your devices and used to steal your identity.

This employee benefit gives you LifeLock identity theft protection, which monitors for fraudulent use of your personal info and works to resolve identity theft issues.

## LifeLock Identity Alert™ System†

It's the foundation for all our services. We monitor for fraudulent use of your Social Security number, name, address, or date of birth in applications for credit and services. The patented system sends alerts by text, phone<sup>‡</sup>, email, or mobile app.

- **Credit Alerts / Social Security Number Alerts†**
- **Identity Verification Monitoring†§**

## Dark Web Monitoring§

Identity thieves can buy or sell your personal information on hard-to-find dark web sites and forums. We patrol the dark web and notify you if we find your information.

- **Dark Web Monitoring – Password Combo List§**
- **Dark Web Monitoring – Gamer Tags§**

No one can prevent all identity theft or all cybercrime.

† The LifeLock alert network includes a variety of product features and data sources. Although it is very extensive, our network does not cover all transactions at all businesses, so you might not receive a LifeLock alert in every single case.

‡ Phone alerts made during normal local business hours.

§ These features are not enabled upon enrollment. Member must take action to get their protection.

# Your family's information is out there, too.

Kids tend to be less concerned with safety than their parents. It's why we include parental control features so you can manage your kids' activities online. Help them explore, learn, and enjoy their connected world safely.<sup>1</sup>

## Parental Control<sup>2§</sup>

- Helps your kids explore the Web more safely by keeping you informed of which sites they are visiting, and helping block harmful or inappropriate sites
- Lets you create rules to restrict access to sites and create a whitelist of preferred sites  
*(only available for Windows, Android and iOS)*
- Helps your kids balance time spent online by letting you schedule screen-time limits for their device usage  
*(only available for Windows, Android and iOS – daily time limit functionality is not supported on iOS, but time curfew functionality is supported)*
- Provides insights into the search terms and videos that interest your kids and flags unsafe behavior, so you can discuss it with them *(only available for Windows, Android and iOS)*
- Get detailed reports on what your kids are doing online, right in your Inbox or on the Parent Portal

No one can prevent all identity theft or all cybercrime.

<sup>1</sup> Norton Parental Control features are not supported on Mac.

<sup>§</sup> These features are not enabled upon enrollment. Member must take action to get their protection.

# Can I protect my personal info on my devices?

When you bank, shop, or browse online, you expose personal information which could make you vulnerable to cybercrime. LifeLock with Norton Benefit Plans give you protection against existing and emerging malware threats, including spyware and ransomware, and protects against online threats at home or on-the-go.

## Secures PCs, Mac & Mobile Devices<sup>§</sup>

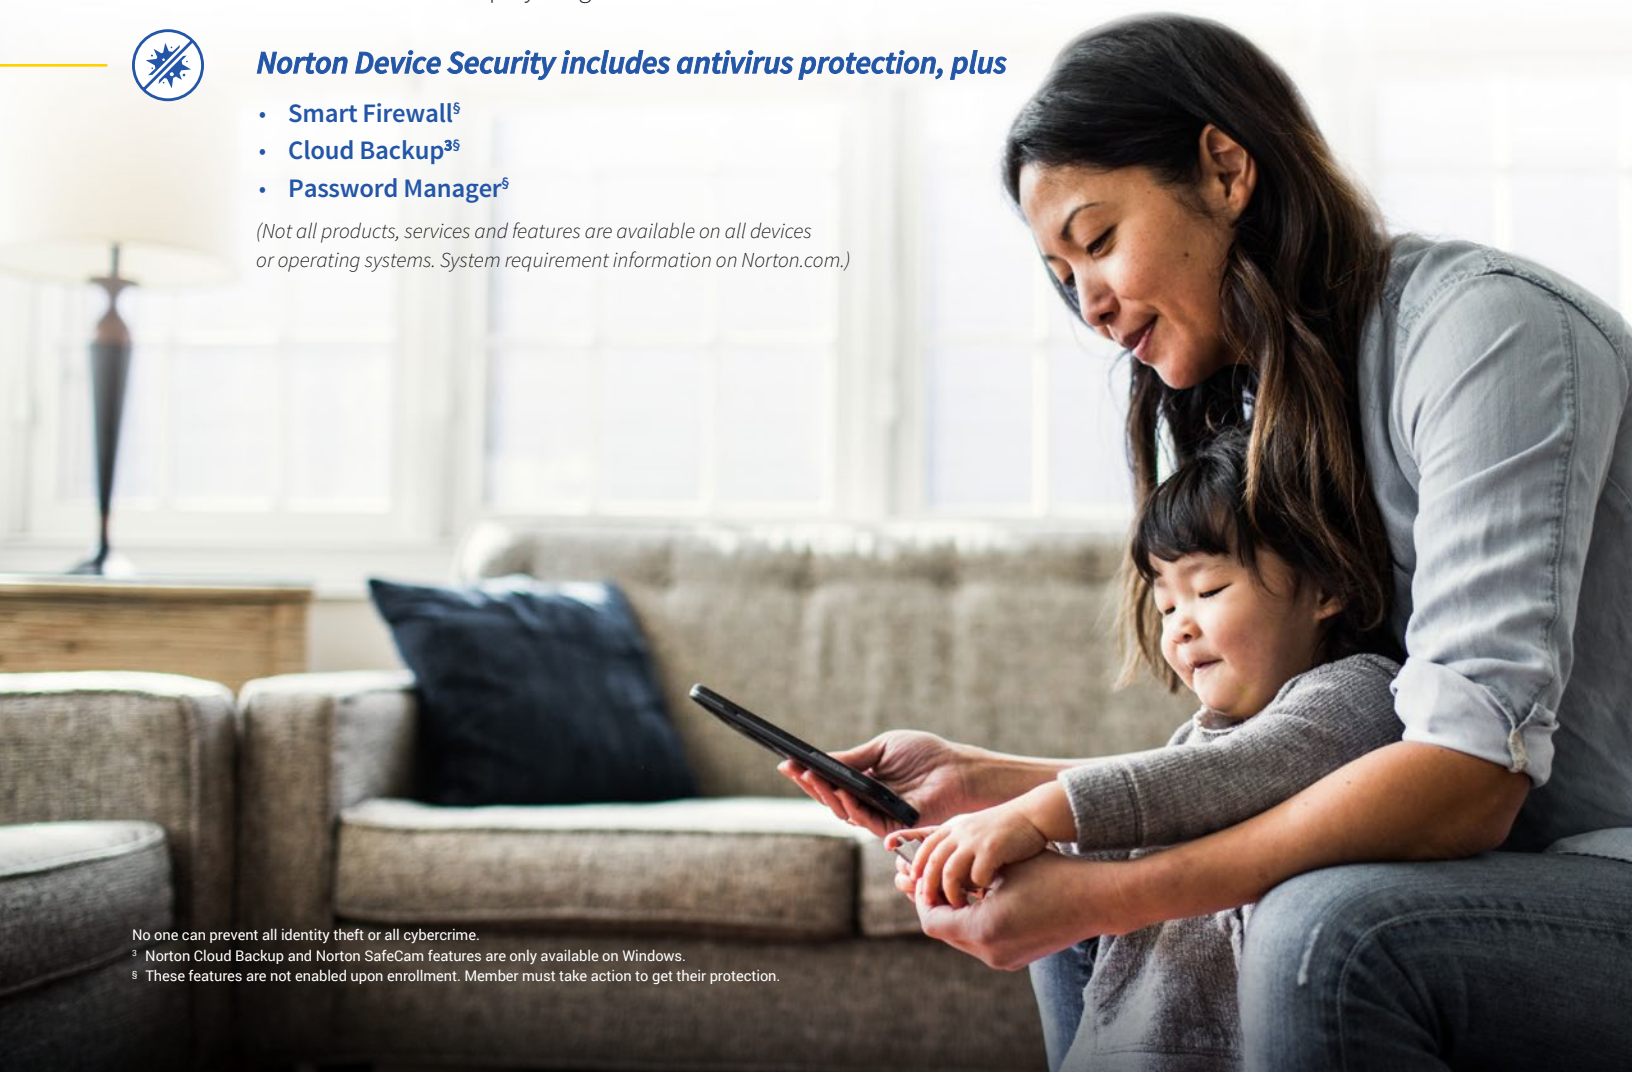

Multi-layered, advanced security helps protect devices against existing and emerging malware threats, including ransomware, and helps protect private and financial information when employees go online.

## Norton Device Security includes antivirus protection, plus

- Smart Firewall<sup>§</sup>
- Cloud Backup<sup>§</sup>
- Password Manager<sup>§</sup>

*(Not all products, services and features are available on all devices or operating systems. System requirement information on Norton.com.)*

No one can prevent all identity theft or all cybercrime.

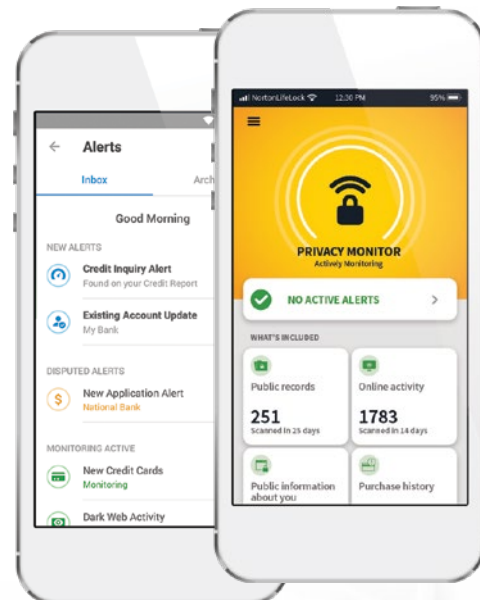

<sup>3</sup> Norton Cloud Backup and Norton SafeCam features are only available on Windows.

<sup>§</sup> These features are not enabled upon enrollment. Member must take action to get their protection.

# How do I reduce exposure of my personal information?

With Privacy Monitor. This helps reduce the public exposure of your personal information.

Screens modified for demonstration purposes. Features may differ depending on plan.

## Privacy Monitor™

We scan common public people-search websites for your personal information and help you opt-out, giving you peace of mind and greater control over your online privacy.

## SafeCam<sup>3</sup>

The webcam on your Windows PC is a great way to keep in touch with family, friends or business associates. But it can also be vulnerable to hacking. With SafeCam, you'll get notified when cybercriminals try to use your webcam, so we can help block them.

No one can prevent all identity theft or all cybercrime.

<sup>3</sup> Norton Cloud Backup and Norton SafeCam features are only available on Windows.

<sup>5</sup> These features are not enabled upon enrollment. Member must take action to get their protection.

# We help keep your digital life a safer place.

Take the easy step to help protect what's important to you and your family. Your info may be out there, but safety starts here – with you.

Plus, we help protect you with our **Million Dollar Protection™ Package**.<sup>†††</sup>

## Restoration

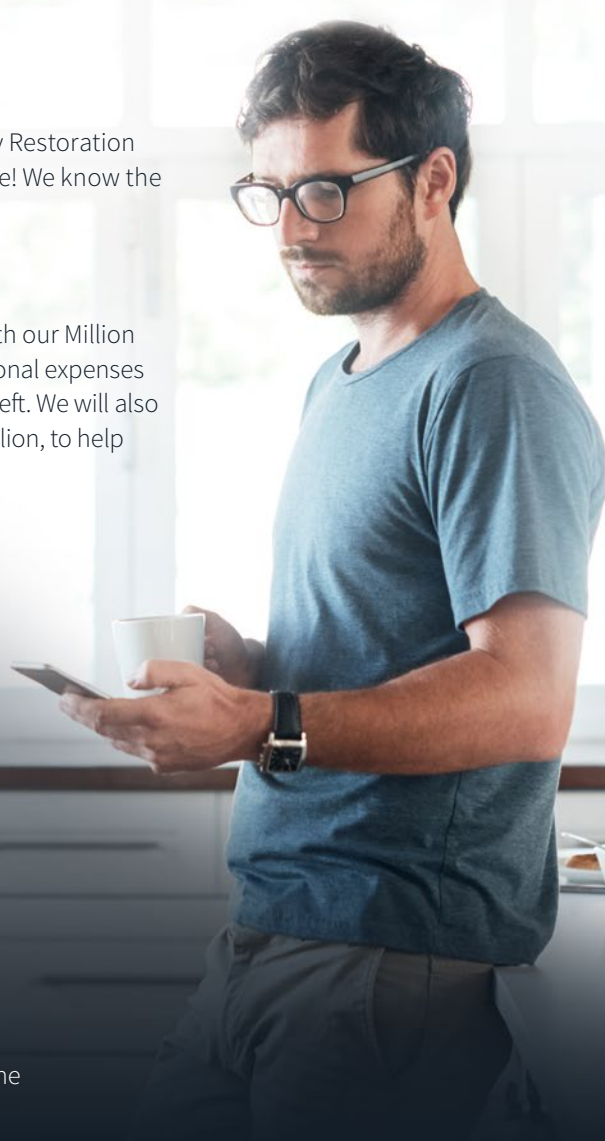

If you become a victim of identity theft, our U.S.-based Identity Restoration Specialists will help you through the process, so you're not alone! We know the steps to take and calls to make to help restore your identity.
