

Fall 2023 Final Examination Schedule

Rindge Campus

The meeting times of your sections during the regular semester are converted below to exam blocks designated by letters. All sections are required to meet at the designated times. Examinations will be administered in the same room in which the course met during the semester unless a different room is announced by the instructor.

All courses are required to have a final exam on campus during the assigned day/time*. To prevent overlap, exams are scheduled using a grid. The use of this grid may leave a student with more than two exams on the same day. Students who find themselves in this situation may request to have an exam(s) rescheduled so that s/he has a maximum of two on any given exam day.

If a change in schedule is desired, the student will contact the instructor to ask for a change to the exam day and provide a reason for the request. If the student needs assistance or is encountering difficulty in obtaining a change, the student should contact the appropriate Dean's office.

**Independent Studies, Directed Studies and Internships are exempt*

	Saturday Dec 9	Sunday Dec 10	Monday Dec. 11	Tuesday Dec. 12	Wednesday Dec. 13	Thursday Dec. 14
