

FRANKLIN PIERCE UNIVERSITY CABLE TV DIRECTORY

Fall 2013

Your TV needs to be “cable ready” and have an internal digital QAM tuner. (Look in your owner’s manual under antennas and tuners for Digital Video Broadcast (DVB), DTV Tuner, Digital Cable Tuner or QAM tuner). Many HD or digital TVs sold after 2007 have an internal digital QAM tuner. If the TV remote has a dot or dash, the TV probably has an internal digital QAM tuner.
